

I listen to a national FM service, K-LOVE, in the Raleigh-Durham area, and I really appreciate the availability of such a high-quality station in my local listening area. Their broadcasts do include announcements of some local events, which are important to me as a resident of the local community. I know a lot of friends in the area who also enjoy the particular programming K-LOVE carries, and I feel it is of a higher quality than anything else available here locally. K-LOVE has proved that what it offers is in the public interest here because of its listener-supported funding. Time and again, many North Carolinians, including myself, have pledged to donate regularly to the station, proving that K-LOVE makes a difference in the way we live our lives. Their positive programming is particularly important to me as I spend hours on the road as a sales rep in this area. The upbeat music helps me stay focused on the important things in life and also helps my stress level stay low as I'm on the road. Please do not allow any other local programming to interfere with the station I love! Thank you for your careful consideration of my comments.
